

HASAN MURAD

NETWORKING | WORDPRESS | CYBERSECURITY | AI AUTOMATION

PROFESSIONAL FOCUS

IT infrastructure, WordPress development, permission-based web security assessments, and AI/Telegram automation. Areas below describe skills, interests and portfolio examples; they do not imply vendor certifications or client delivery.

CORE TECHNOLOGY AREAS

- Networks: IP addressing, VLAN, routing, VPN, MikroTik RouterOS, FortiGate, Palo Alto and IP CCTV.
- WordPress: websites, Elementor, themes, plugins, WooCommerce, maintenance and troubleshooting.
- Cybersecurity: authorized web/API testing, OWASP, Burp Suite, network assessment methodology.
- AI automation: assistants, Cloudflare Workers, Telegram bots, webhooks, document Q&A and WordPress chat integration.

SELECTED PORTFOLIO WORK

- Telegram AI assistant (@Hotmail67_bot): bot commands, document Q&A, webhook, database-backed conversation context and admin monitoring dashboard; demonstrated through interactive tests.
- Website demos: portfolio, MikroTik hotspot UI mockup, WordPress news layout, segmented network blueprint and security learning checklist (clearly labeled as demos).
